Reasoning

- The distribution of the grants is based on the indefinite decision ([link](#)) and the annual decision ([link](#)) both approved by the TaiYo Board in its meeting 3/2026.
- All the applicants met the criteria for getting project grant. There were a lot of applications, some for large sums, and TaiYo could not allocate the applied for sum to almost anybody.
- The Board emphasized the reach of the project in its allocation decision. That is to say, how many students benefit from each project and can potential participate in it.

Committee grants

according to the budget each academy committee will be allocated 400 euros and the doctoral researchers committee 200 euros. All of the academy committees have already been allocated their grants this year.
